this report.

MONTANA WELL LOG REPORT

This well log reports the activities of a licensed Montana well driller, serves as the official record of work done within the borehole and casing, and describes the amount of water encountered. This report is compiled electronically from the contents of the Ground Water Information Center (GWIC) database for this site. Acquiring water rights is the well owner's responsibility and is NOT accomplished by the filing of

Section 7: Well Test Data

Total Depth: 260 Static Water Level: 120 Water Temperature:

Air Test *

20 gpm with drill stem set at 255 feet for 2 hours.
 Time of recovery 2 hours.
 Recovery water level 120 feet.
 Pumping water level _ feet.

* During the well test the discharge rate shall be as uniform as possible. This rate may or may not be the sustainable yield of the well. Sustainable yield does not include the reservoir of the well casing.

Section 8: Remarks

Section 9: Well Log Geologic Source

400BELT - BELT SUPERGROUP

From	То	Description			
_					
0		GRAY CLAY WITH GRAVEL			
90		GRAY ROCK			
220	260	BROWN ROCK / WATER			

Driller Certification

All work performed and reported in this well log is in compliance with the Montana well construction standards. This report is true to the best of my knowledge.
